

### NOTICE ON RELATED-PARTY TRANSACTIONS

Parties	Braskem S.A (“Braskem”) and Petróleo Brasileiro S. A - Petrobras (“Petrobras”).
Relationship with the issuer	Petrobras holds 47.03% of the voting capital and 36.10% of the total capital of Braskem.
Purpose	Purchase and sale of petrochemical naphtha in addition to those contracted for April 2020.
Key terms and conditions	<p>Agreement for the purchase of up to 220,000 tons of petrochemical naphtha from Petrobras for supplying Braskem units in Bahia, Rio Grande do Sul and São Paulo, estimated at one hundred and forty million reais (R\$140,000,000.00).</p> <p>Price: Referenced to the international ARA (Amsterdam, Rotterdam and Antwerp) naphtha price, at a discount of 35 dollars per ton for 190,000 tons for Braskem’s petrochemical complexes in Bahia and Rio Grande do Sul, and at a discount of 15 dollars per ton for 30,000 tons for Braskem’s petrochemical complex in São Paulo.</p>
Date of execution of the agreement	April 21, 2020
Any participation by the counterparty, its partners or managers in the issuer’s decision-making process or in the negotiation of the transaction as representatives of the issuer	There was no participation of Petrobras, its partners and managers in Braskem’s decision-making process on the transaction or in the negotiation of the transaction as representatives of Braskem. The directors of Braskem who are part of Petrobras’ management refrained from deliberating on the transaction at the meeting of the Board of Directors of Braskem that discussed this matter.
Detailed justification of the reasons why the management of the issuer believes the transaction was carried out on an arm’s length basis or involves adequate compensatory payment	The transaction was negotiated between the parties due to the decline in demand for gasoline in Brazil as a result of the crisis caused by Covid-19. Given the similarity between gasoline and petrochemical naphtha, the Parties agreed on an additional purchase of petrochemical naphtha by Braskem in April 2020 in a volume equivalent to the naphtha volumes imported by Braskem in the period. The contractual obligations of the parties to the

	contract were established based on market benchmarks or similar contracts with third parties that are not related parties.
